# cloud connect

eunetworks

bandwidth changes everything

bandwidth changes everything

We are a bandwidth infrastructure company and leading cloud connectivity provider, directly connecting 13 cloud platforms, with access to a further 7.

Alibaba Cloud · amazon web services · salesforce · Google Cloud Platform · SOFTLAYER an IBM Company · Microsoft Azure

14
cloud platforms directly connected to out networks

14
metro cities with unique duct & fibre ownership

350+
connected data centres means we are Europe's leading data centre connectivity provider

cloud connect

euNetworks is a leading cloud connectivity provider in Europe, with direct connection into 14 cloud platforms and access into more. The euNetworks Cloud Connect interconnect solution provides a multi-cloud environment across the 350+ data centres we are directly connected into.

The connection is private, secure and diverse- for the port, the network and the data centre. We offer ease to scale, and the commercial flexibility to match your usage requirements. Cloud Connect customers can also order their solutions online via the euNetworks customer portal.

Secure, private connection
- Offering connection through a secure and private Ethernet connection to multiple cloud environments over a single physical port
- Point to Point or Multi-Point for multiple providers or redundancy
- Diversity – port, network and data centre
- Circuit speeds from 10Mbps to 10Gbps
- Interconnection ports, 1Gbps, 10 Gbps and 40Gbps

Scalable with high performance
- Scalable in hours versus weeks
- Guaranteed by industry leading SLAs – these are known, optimised routes with SLAs covering packet delivery from 99.8% to 99.99%
- Committed latency and jitter numbers for predictable connectivity to the cloud

Approved Cloud partner
- euNetworks is an approved partner for AWS Direct Connect, Microsoft Azure ExpressRoute, Google Carrier Interconnect, Salesforce Express Connect, Softlayer Direct Link and Alibaba Cloud
- We can deliver connectivity into all available Cloud Service Provider entry points

Data centre neutral
- We directly connect into 350+ data centres across Europe, and that number continues to grow
- There are also reseller options available

Control & visibility
- Offering full and end to end control and visibility of package data via our customer portal
- Online ordering available on our customer portal

commercial flexibility

euNetworks offers three billing options to suit business requirements

Fixed billing:
- Suiting high utilisation users and small businesses
- Monthly recurring fixed bill
- Offers predictability and consistency

Burstable:
- Benefits customers who expect occasional surges in traffic or would like to incrementally increase their bandwidth if usage surpasses expectations
- Traffic is measured every 5 minutes
- 5% peak moments are discarded
- Traffic above this is billed as an additional cost

Usage based:
- Benefits customers who tend to use their cloud platforms on demand and not consistently through the day
- Billing is based on time utilisation
- Traffic is measured every hour
- Once the threshold of 64Kbps is reached, a full hour is invoiced

Order Cloud Connect services on the euNetworks customer portal. Speak to your account manager or visit

our network

At the core of our service is our network. We own and operate high capacity fibre networks in many of Europe's key business centres as well as a truly diverse and triverse backbone network.

We continue to invest in our footprint, adding new capabilities to sites in cities as well as new routes between cities and expanding our fibre reach.
