

dc connect

switzerland

We are a bandwidth infrastructure provider, delivering fibre-based network solutions to customers across Europe.

As a leading data centre connectivity provider, we are always looking at ways to enable you with high speed connections to data centres and key sites you need.

We own and operate a fibre network in Switzerland and in 14 other countries across Europe. This means we guarantee to deliver a reliable, scalable and cost-efficient bandwidth solutions in a way that others cannot.

DC Connect is our unique data centre connectivity solution. We have pre-deployed capacity between 15 key data centres in Switzerland. This means we can offer you a rapid bandwidth service turn up, with 20 working day delivery SLA.

dc connect's focus enables us to deliver:

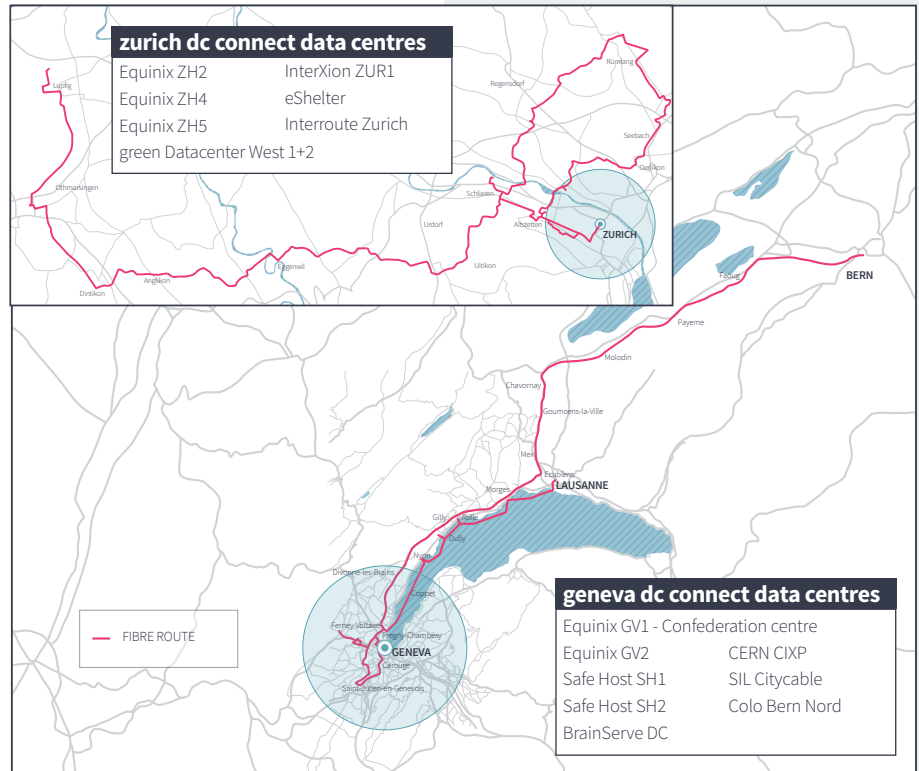

- Access to an interconnected network of data centres, enabling instant and seamless connectivity with industry leading delivery SLAs
- The right blend of connectivity solutions for your needs, from Ethernet to Wavelengths
- Access to an on-net portfolio of partners – System Integrators and Cloud Service providers – for a seamless experience not just in Switzerland, but across Europe

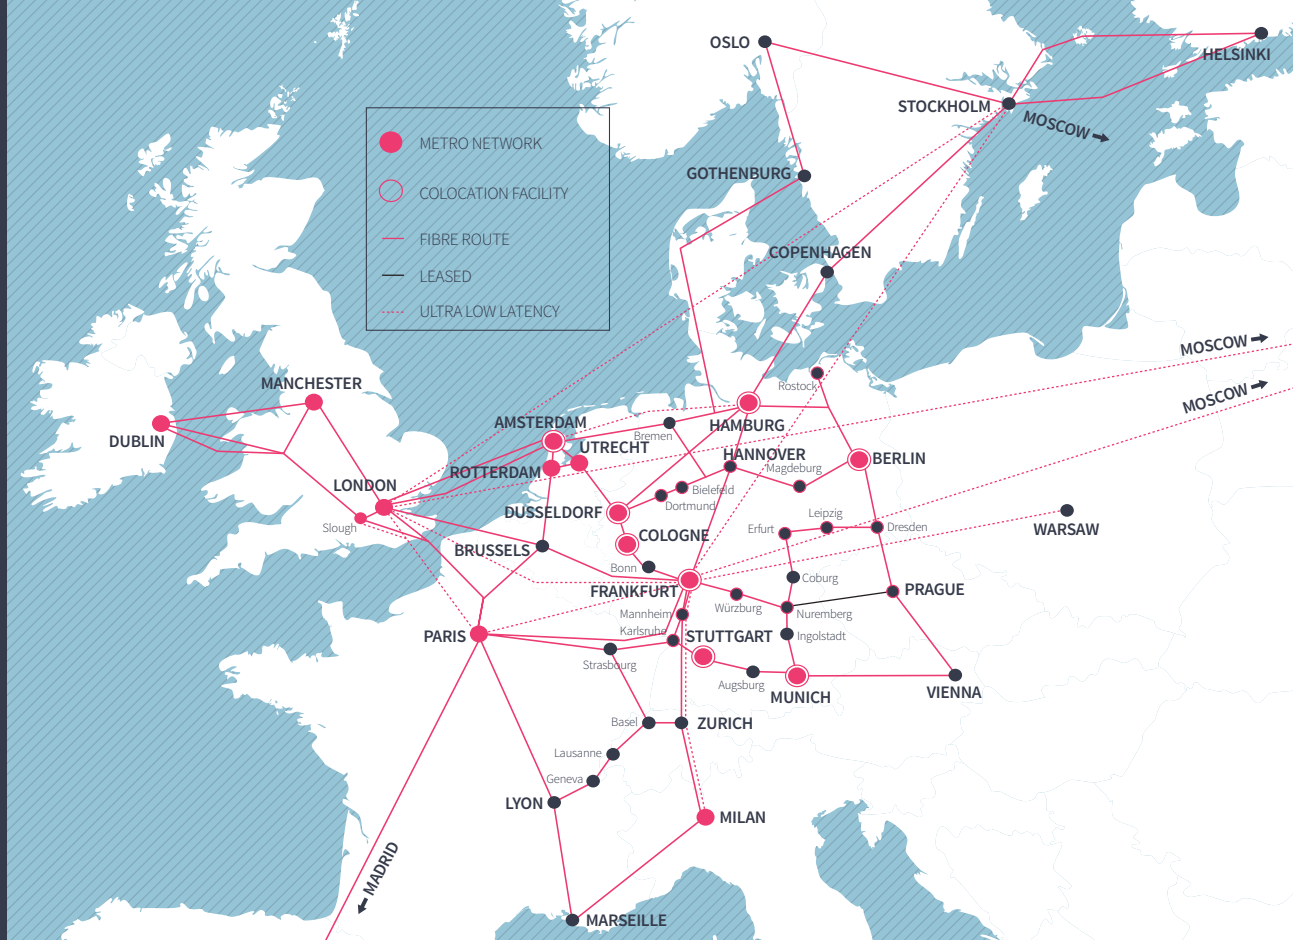

- Onward connectivity to the rest of Europe – with metro networks in 14 European cities, and a diverse long haul network, onward connectivity from euNetworks to other cities with access to the same bandwidth solutions and experience wherever you need to be.
