**N. M. FLEISCHHACKER EXTENDS SUCCESSFUL COLLABORATION WITH  
EUNETWORKS**

*MISSION CRITICAL ETHERNET SOLUTION FOR GERMANY'S LONGEST ESTABLISHED  
SECURITY TRADING BANK*

**Frankfurt/Germany, 11 December 2007** – euNetworks (SGX: H23.SI), owner and operator of one of Europe's highest capacity fiber networks and provider of mission critical infrastructure and services, today announced that it has extended its successful collaboration with German securities trading bank N. M. Fleischhacker AG (Fleischhacker). Under the terms of the agreement, euNetworks will deploy ether | nex, an Ethernet based networking solution in Frankfurt/Germany, enabling Fleischhacker with a platform that ensures smooth trading conditions for their expanding international customer base.

Fleischhacker, one of Germany's most innovative security trading banks, required a highly reliable and scalable solution to connect their headquarter in Frankfurt with their location at FWB, Frankfurter Wertpapierbörse (Frankfurt Stock Exchange). euNetworks enabled Fleischhacker with ether | nex, a high availability 10 Mbit Ethernet solution for the real-time sharing of applications and speedy transfer of data. Under the terms of the extended agreement, Fleischhacker then upgraded to a 100 Mbit connection to further strengthen their solution of highly reliable networking. ether | nex is deployed over euNetworks' all-fiber optic network, providing Fleischhacker with a highly secure and scalable platform to ensure mission critical communications.

Michael Wilhelm, Member of the Board, N. M. Fleischhacker AG, commented: “We demanded a highly reliable and scalable platform to meet the most exacting requirements for secure securities trading. euNetworks was in the unique position to provide us with a bespoke Ethernet solution for highest levels of scalability and security.”

“Fleischhacker as one of Germany's leading security trading banks operates in a highly regulated sector and required highest levels of security and availability,” commented Noel Meaney, Chief Executive Officer of euNetworks. “euNetworks uniquely enabled Fleischhacker with the mission critical, scalable solution required, leveraging off our immense network infrastructure.”

### **ether | nex services**

ether | nex is euNetworks' Ethernet solution, primarily designed for companies that need to link multiple offices, locations or exchanges for the real-time sharing of applications, speedy transfer of data or the storage and replication of mission critical information. ether | nex is deployed on dedicated fiber for unrivalled security and scalability, connecting 15 of Europe's largest cities across five countries. Organisations can connect numerous offices in different cities and even countries with minimum complexity, minimum cost and a range of speeds and capacities.

### **About euNetworks**

euNetworks owns and operates one of Europe's highest capacity fiber networks and provides mission critical communication infrastructure and services to large corporates, carriers, and service providers. Constructed at a cost in excess of €1.3 billion, euNetworks all-fiber optic network uniquely combines 'long-haul' inter-city network linking Europe's largest economies, with high density 'last-mile' metropolitan fiber networks in 15 of Europe's leading cities. euNetworks was recently awarded the prestigious title of “Best New Entrant” by leading telecommunications publication, Capacity Magazine. The award was granted to euNetworks following their acquisition of a pan-European fiber network thus extending their unique proposition of delivering private fiber networks – an offering the judges felt is of immense value to large Corporates and carriers alike. euNetworks, a member of the Global Voice Group, is headquartered in Frankfurt, publicly listed on the Singapore stock exchange (SGX: H23.SI). euNetworks is a member

of euro-one, a unique collaboration to deliver infrastructure and next generation networking solutions connecting Eastern, Central, Western Europe and North America ([www.euro-one.com](http://www.euro-one.com)). For further information please visit [www.euNetworks.com](http://www.euNetworks.com).

### **About N. M. Fleischhacker AG**

As the eldest German security trading house, the traditional values of equity business are the fundament on which we perform our customer-oriented, professional services under consideration of all continuing market changes.

Tradition means for us that our dealings with customers are stamped by personal engagement and utmost trustworthiness. In the area of price fixing it is therefore our top maxim to guarantee an execution that is wholly in line with market and timing for all our national and international clients who intend to buy or sell any securities traded in Germany. We offer our institutional clients professional and reliable executions that are strictly subject to the customers interest, and which are completed with consulting services and information products.

Our task is the brokerage of purchase and sale of all German and foreign securities traded in the German market for national and international market participants. We want to offer our customers the best service in regard to price fixing and order execution. We provide the required liquidity in order to guarantee the best execution of orders time- and market-wise.

Individual and personal customer-care, outstanding and prompt information and a comprehensive offer of research- and information products create a basis of confidence on which we present our institutional clients excellent counselling and order execution at best price.
