euNetworks Delivers Infrastructure to Hogarth Worldwide

- Multi-year contract delivering Fibre ring in London
- Growing demand for euNetworks' service portfolio amongst the Media industry

London, UNITED KINGDOM – 26 February 2013 –euNetworks Group Limited (SGX: H23.SI), today announced a new multi-year agreement with global marketing implementation agency Hogarth Worldwide (part of WPP Group). euNetworks was selected to deliver a Dark Fibre ring in London, connecting all of Hogarth Worldwide's major points of presence (PoPs). This infrastructure was delivered to Hogarth in 4Q 2012 and is now live.

Hogarth is a marketing implementation agency that uses proprietary technology to deliver intelligent savings for global brands. By combining a series of new systems and technologies Hogarth's specific expertise in TV and audio post production, print and digital production, transcreation and high-end CGI, enables the production and delivery of national and international campaigns at a fraction of the historic cost, while enhancing quality.

"Effective and reliable technology systems underpin our business model," said Dino Ciminello, Group Service Infrastructure Director at Hogarth Worldwide. "The fibre delivered by euNetworks gives us the flexibility and control we need to deliver very high bandwidth services across our enterprise."

"We believe that every business should have access to bandwidth without limits," said Brady Rafuse, Chief Executive Officer of euNetworks. "We are delighted to be supporting Hogarth Worldwide with the development of their underlying infrastructure, enabling enhanced online production delivery by serving the growing bandwidth needs between their offices, to data centres and to clients. Our unique fibre based infrastructure delivers bandwidth solutions that serve the media segment well as convergence of technologies, systems, IT and devices continues."

About euNetworks

euNetworks Group Limited (SGX: H23:SI) is a bandwidth infrastructure provider, owning and operating 13 fibre based metropolitan networks across Europe connected with a high capacity intercity backbone covering 38 cities in 9 countries. The Company offers a portfolio of metropolitan and long haul services including Colocation, Dark Fibre, Metro Wavelengths, Wavelengths, Ethernet, and Internet.
