

euNetworks Delivers Bandwidth to Infinity SDC Limited

- Bandwidth services to connect Infinity SDC Limited data centres in Romford and Slough
- Supporting rapid connectivity service to Infinity's customers, with 10 day service delivery

London, UNITED KINGDOM – 5 September 2013 – [euNetworks](#) Group Limited (SGX:5VT.SI) today announced it has partnered with [Infinity](#) SDC Limited to deliver connectivity that will link Infinity's data centres in Romford (north east of London) and Slough (to the west of London). This multi-year agreement will enable Infinity to provide scalable bandwidth to their customers with a 10 day service delivery. This is being marketed as 'Infinity Data Centre Network' (DCN). euNetworks will provide Wavelengths, Fibre Channel and Ethernet into their sites. It also delivers diverse building entry and fibre routes at both sites.

Infinity has a portfolio of data centres in and around London. They provide rack-level colocation, private suites, scalable data halls and dedicated data centres. Their resilient and secure facilities support critical operations for some of the world's most successful companies. Their customers include some of the UK's leading financial organisations, cloud vendors, global insurers and telecommunications companies.

"We recognise that connectivity is an essential part of today's data centre offering and we are delighted to partner with euNetworks to deliver our new DCN," said Nigel Stevens, Chief Marketing Officer of Infinity. "The infrastructure that [euNetworks](#) is delivering means we can provide truly scalable connectivity at incredibly short notice, which is a huge advantage for our customers."

"Infinity is an award-winning data centre provider who continue to develop their facilities in line with what their customers need today and for the future," said Uwe Nickl, Chief Marketing Officer of euNetworks. "Connectivity that is scalable in support of ever-growing business needs is fundamental to a company such as Infinity and their product. We are excited to be working with them on this important and strategic project and remain committed to further roll out in additional locations in the future."

About euNetworks
