

euNetworks Delivers Internet Connectivity to Xantaro Deutschland GmbH

- Selected for portfolio capability and service level commitment

London, UNITED KINGDOM; Frankfurt am Main, GERMANY – 21 February 2013 – euNetworks GmbH, a subsidiary of euNetworks Group Limited (SGX: H23.SI), today announced it has signed a multi-year agreement with Xantaro Deutschland GmbH to deliver Internet connectivity. Under the terms of this new agreement, euNetworks is supporting Xantaro’s connectivity requirements between the two key cities of Frankfurt and Hamburg, with this service going live in January 2013.

Xantaro is an international Service Integrator for carriers and service providers, as well as for enterprises and institutions, whose core business relies on the network. With a comprehensive service portfolio, Xantaro supports its customers in designing, implementing, maintaining and developing high-performance networks innovatively and economically.

“Our line of business is one of the fastest moving today. Our business continues to develop and grow as our customers’ service and platform requirements continue to evolve. This new connectivity solution is important to support that,” said Peter Schulte, Managing Director of Xantaro Deutschland. “We selected euNetworks GmbH as our connectivity provider due to their network quality and service commitments.”

“Xantaro has been a supplier to euNetworks for a number of years,” said Uwe Nickl, Chief Marketing Officer of euNetworks. “This new agreement positions euNetworks as a service provider to Xantaro and we are delighted to be working with them in this capacity. Our unique fibre assets, Internet product and our service commitment place us well to be able to support Xantaro and similar style companies, as their business needs grow. We look forward to growing this relationship as we continue to work together.”

About euNetworks
