## **euNetworks Invests in Paris Network**

Launches *dc connect Paris*, delivering pre-provisioned capacity between 12 data centres in the city

**London, UNITED KINGDOM; Paris, FRANCE – 29 October 2015** – euNetworks, a unique bandwidth infrastructure provider, today announced further network investment in Paris, France. The company is launching [dc connect](#) in Paris. This solution offers customers near instant, scalable high bandwidth data centre to data centre connectivity between 12 data centres, with onward connectivity to more than 260 data centres across Europe. euNetworks launched its *dc connect* service in [London](#) last year and has since expanded this metro based bandwidth solution to Frankfurt and now Paris.

euNetworks owns and operates 13 metro networks across Europe with a high capacity intercity backbone between these cities. The company continues to invest in its infrastructure, expanding the network footprint in line with customer demand and market needs and today is a leading data centre and cloud connectivity provider in Europe.

"*dc connect* Paris offers service turn up within 10 days between 12 data centres in Paris. This serves clients in the Paris area with more data centres on-net and also provides more route options via euNetworks' long haul connections to the UK and the rest of Continent," said Kevin Dean, Chief Marketing Officer of euNetworks. "The solution offers capacity from 1Gb Ethernet to 100G Metro Wavelengths between the sites and an agile and flexible approach to bandwidth delivery that customers today need to respond to dynamic market conditions. This solution also serves the growing needs of businesses to rapidly connect to cloud platforms."

"Paris is a market with strong growth potential for euNetworks, with increasing bandwidth requirements from customers across all segments," said Denis Le Brizault, Chief Sales Officer of euNetworks. "We are delighted to be able to offer *dc connect* in France as we look to invest further to support our customer's demand. With our increased service capability in France we have invested in a local team based in Paris."

The euNetworks team will be onsite at [Capacity Europe](#) from 2-4 November in Paris, talking about *dc connect*, the focused product portfolio available, and upcoming network investments. To learn more or book a meeting, contact the team via the press contact provided below.

### **About euNetworks**

euNetworks is a bandwidth infrastructure provider, owning and operating 13 fibre based metropolitan networks across Europe connected with a high capacity intercity backbone covering 45 cities in 10 countries. The company leads the market in data centre connectivity, directly connecting over 260 in Europe today. euNetworks is also a leading cloud connectivity provider, connecting 12 cloud platforms. The company offers a portfolio of metropolitan and long haul services including Dark Fibre, Metro Wavelengths, Wavelengths, Ethernet, and Internet. Media, finance, enterprise and carrier customers benefit from euNetworks' unique inventory of fibre and duct based assets that are tailored to fulfil their high bandwidth needs.
