We own and operate a fibre network in Frankfurt and 51 other cities across Europe. This means we can guarantee to deliver reliable, scalable and cost-efficient bandwidth solutions.
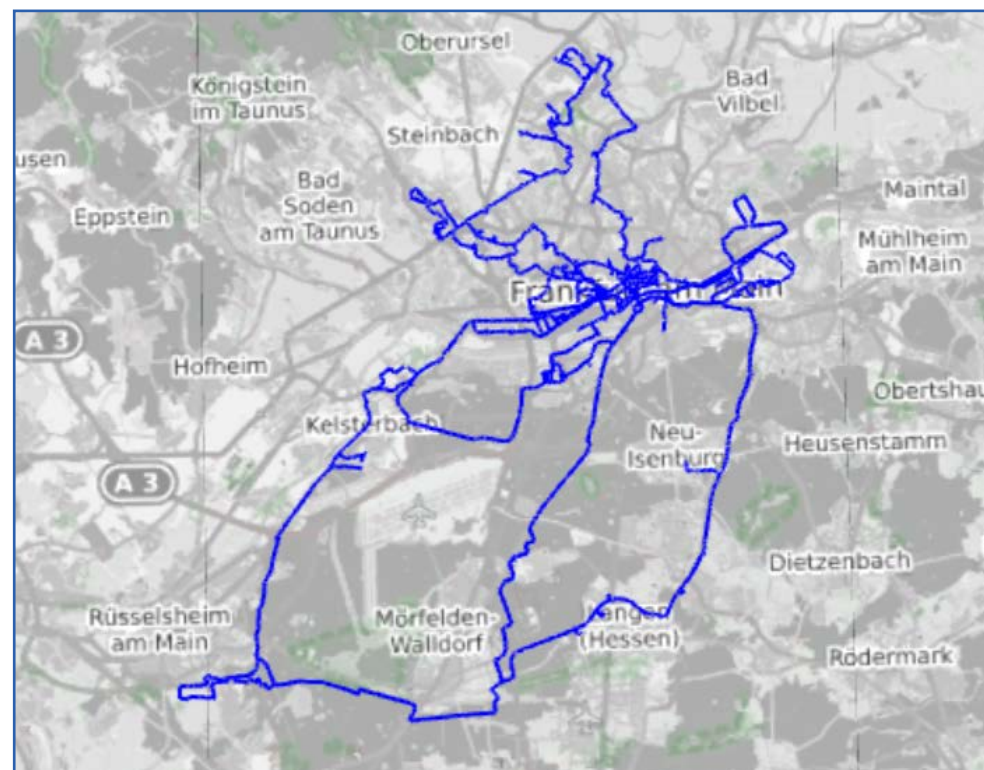

DC Connect is our unique data centre connectivity solution. We have pre-deployed capacity between 13 data centres in Frankfurt. This means we can offer you rapid bandwidth service turn up with a 10 working day delivery SLA.

DC Connect delivers:

- Access to an interconnected network of data centres enabling near-instant, high bandwidth connectivity backed by industry leading delivery SLAs.

- The right blend of connectivity solutions for your needs, from Ethernet to Wavelengths and Fibre.

- Direct connection into all major cloud platforms such as AWS Direct Connect, Microsoft Azure ExpressRoute, Google Cloud Interconnect, Salesforce Express Connect.

- Seamless onward connectivity to the rest of Europe - with metro networks in 17 European cities and a diverse long haul network.

Telehouse Frankfurt	Interxion FRA3		

Our long haul network

- We continue to add route kilometres in our metro and intercity networks, connecting more data centres, key sites and buildings with fibre.

Connecting to key data centres

- Offering connectivity options with leading service delivery timescales to key data centres
- Further connectivity to data centres across Europe, with 440+ directly connected in 51 cities

Rapid delivery

- Pre-deployed fibre based connectivity owned and operated by euNetworks
- Rapid service turn up across our footprint with delivery times of 5 days in some cities
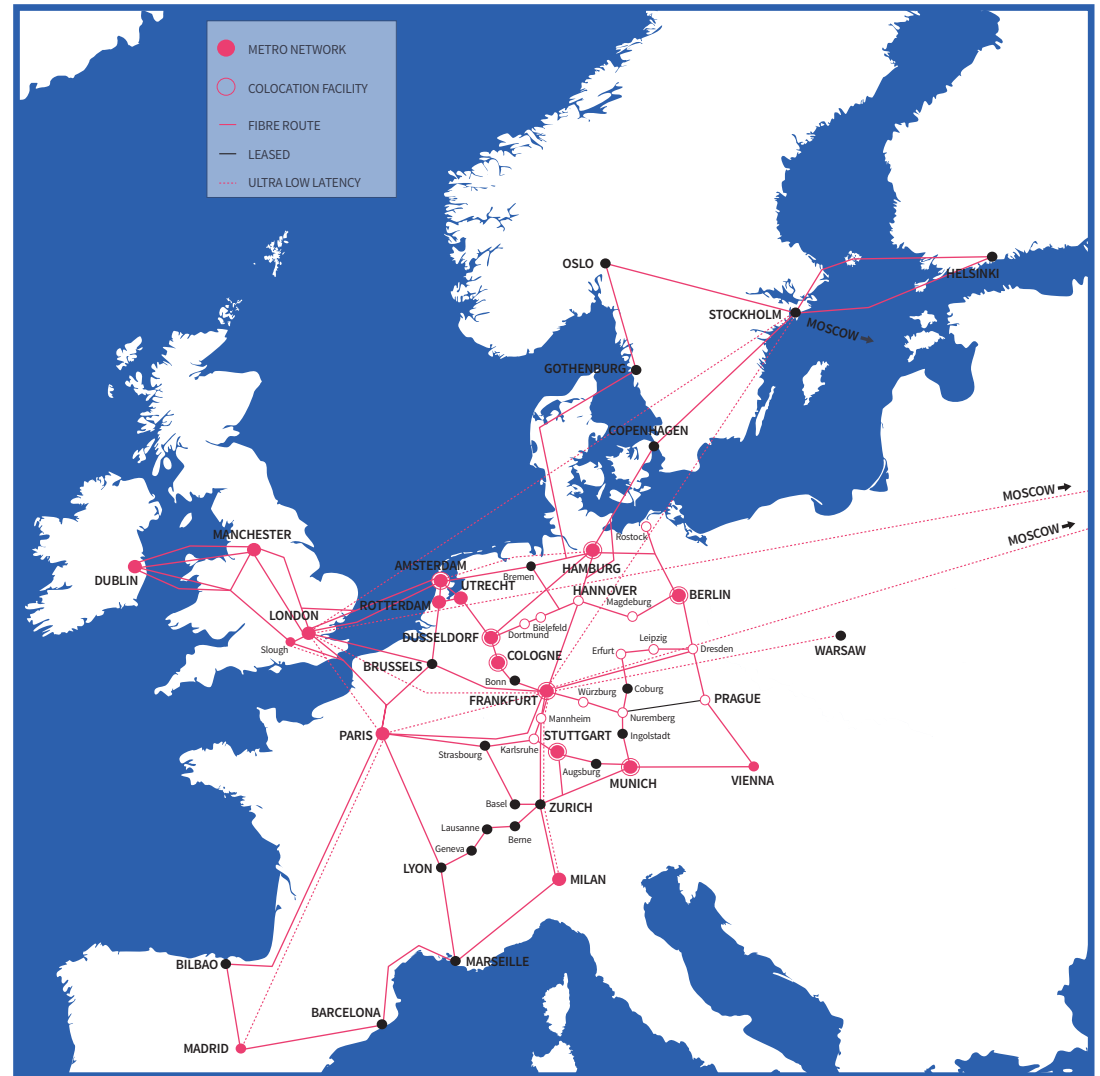

Scalable connectivity

- Ethernet services, Metro Wavelengths and fibre-based solutions.
- An Ethernet platform that scales to support changing connectivity needs
- Highly reliable, private and dedicated fibre connectivity.

Enabling cloud access

- Direct connection into all major cloud platforms such as AWS Direct Connect, Microsoft Azure ExpressRoute, Google Cloud Interconnect and Salesforce Express Connect.

Cost efficiencies

- euNetworks owns and operates the network at the fibre layer, so our economics are compelling.
