

We own and operate a fibre network in London and 51 other cities across Europe. This means we can guarantee to deliver reliable, scalable and cost-efficient bandwidth solutions.

DC Connect is our unique data centre connectivity solution. We have pre-deployed capacity between 41 data centres across our network footprint spanning the West of London out to Hemel Hempstead, Slough and Chiswick, Woking, Chessington, the West End, City and East to London Docklands. This means we can offer you rapid bandwidth service turn up with a 5 working day delivery SLA.

DC Connect delivers:

- Access to an interconnected network of data centres enabling near-instant, high bandwidth connectivity backed by industry leading delivery SLAs.
- The right blend of connectivity solutions for your needs, from Ethernet to Wavelengths and Fibre.
- Direct connection into all major cloud platforms such as AWS Direct Connect, Microsoft Azure ExpressRoute, Google Cloud Interconnect, Salesforce Express Connect.
- Seamless onward connectivity to the rest of Europe - with metro networks in 17 European cities and a diverse long haul network.

DC Connect key data centres

Equinix LD4	Exchange Tower	Equinix LD2	Savvis – Slough Hosting Centre (UK1)
Equinix LD5	Global Switch London 1	Equinix LD3	Equinix LD1
Gyron Ajax	Global Switch London 2	SunGard, Hounslow	Interxion, LON1
Digital 217 Marsh Wall	iRack Networks, IP House	Dell EMC Slough	Iomart Hosting, London DC
Equinix LD9	London Hosting Centre	Telehouse East	Level 3, Goswell Road
VIRTUS LONDON4	Telehouse West	London Stock Exchange	Telefonica O2 Data Centre
Digital 227 Marsh Wall	Volta	Telehouse Metro	Chiswick Park, Building 1
Telehouse North	Equinix LD1	Virtus LONDON2	Redcentric London Data Centre

Our long haul network

- We continue to add route kilometres in our metro and intercity networks, connecting more data centres, key sites and buildings with fibre.

Connecting to key data centres

- Offering connectivity options with leading service delivery timescales to key data centres
- Further connectivity to data centres across Europe, with 440+ directly connected in 51 cities

Rapid delivery

- Pre-deployed fibre based connectivity owned and operated by euNetworks
- Rapid service turn up across our footprint with delivery times of 5 days in some cities

Scalable connectivity

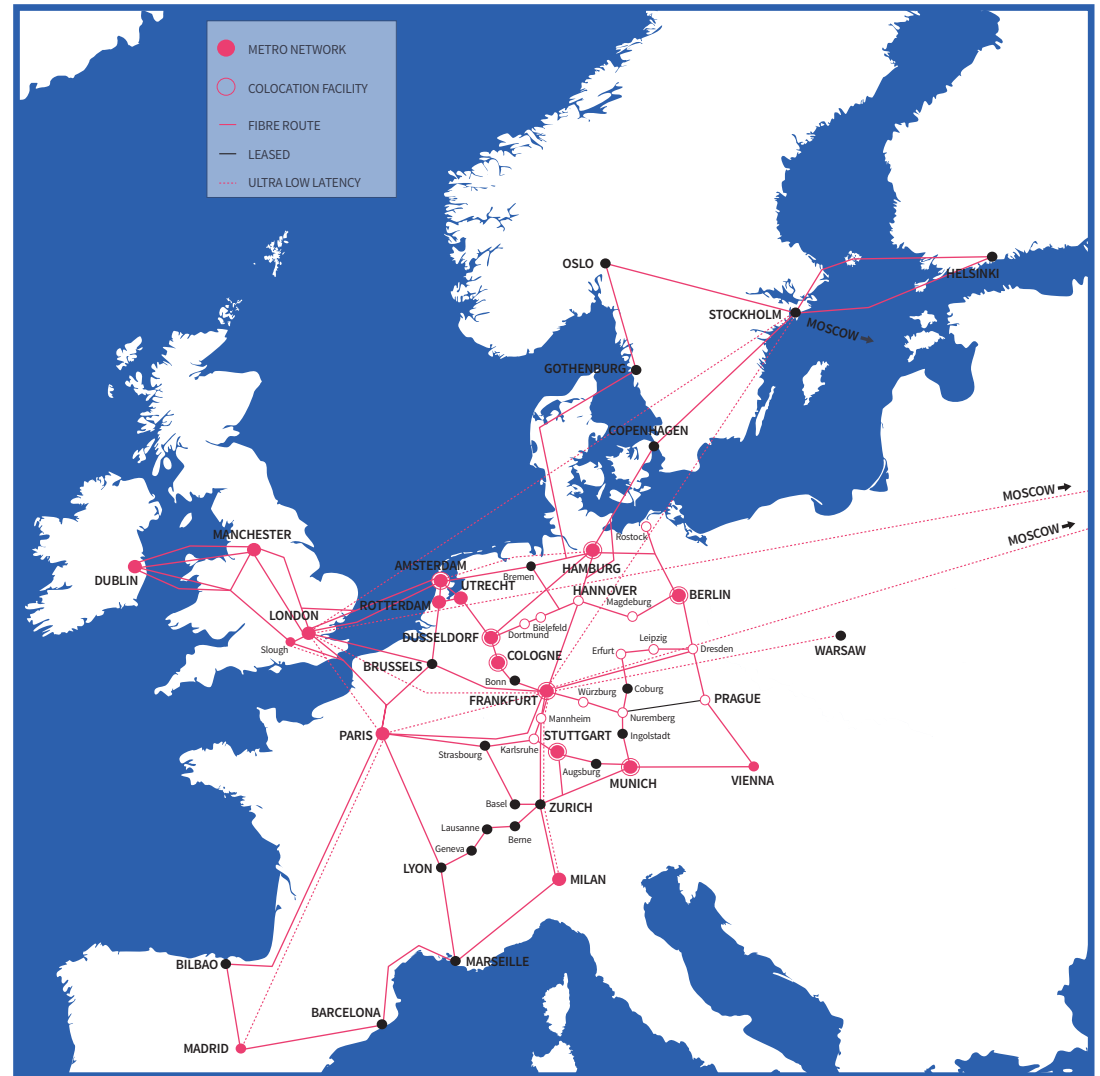

- Ethernet services, Metro Wavelengths and fibre-based solutions.
- An Ethernet platform that scales to support changing connectivity needs
- Highly reliable, private and dedicated fibre connectivity.

Enabling cloud access

- Direct connection into all major cloud platforms such as AWS Direct Connect, Microsoft Azure ExpressRoute, Google Cloud Interconnect and Salesforce Express Connect.

Cost efficiencies

- euNetworks owns and operates the network at the fibre layer, so our economics are compelling.
