

## Our long haul network

- We continue to add route kilometres in our metro and intercity networks, connecting more data centres, key sites and buildings with fibre.

## Connecting to key data centres

- Offering connectivity options with leading service delivery timescales to key data centres
- Further connectivity to data centres across Europe, with 480+ directly connected in 53 cities

## Rapid delivery

- Pre-deployed fibre based connectivity owned and operated by euNetworks
- Rapid service turn up across our footprint with delivery times of 5 days in some cities

## Scalable connectivity

- Ethernet services, Metro Wavelengths and fibre-based solutions.
- An Ethernet platform that scales to support changing connectivity needs
- Highly reliable, private and dedicated fibre connectivity.

## Enabling cloud access

- Direct connection into all major cloud platforms such as AWS Direct Connect, Microsoft Azure ExpressRoute, Google Cloud Interconnect and Salesforce Express Connect.

## Cost efficiencies

- euNetworks owns and operates the network at the fibre layer, so our economics are compelling.
