Unlocking New Potential: euNetworks joins Connectbase, Expanding the Platform's European Presence and Access to Extensive Fiber Connectivity

BOSTON, MA, USA; LONDON, UK – 19 November 2024 – Connectbase, the global ecosystem for buying and selling connectivity, is proud to announce that euNetworks, Europe's critical infrastructure provider, have joined the Connectbase platform. As a leading provider of data center-centric bandwidth infrastructure services across Europe, the addition of euNetworks to the ecosystem further solidifies Connectbase's position as a truly global platform for accessing connectivity solutions. The addition of euNetworks significantly enhances Connectbase's European presence, expanding access to one of the continent's most extensive, unique and technologically advanced fiber networks.

euNetworks' integration with the Connectbase platform aligns with the company's commitment to making customers' lives as easy as possible. Alongside its European-based account teams, the company is enabling customers access to its fiber-based solutions through multiple digital channels. euNetworks' customers can now order digitally through API, portal or marketplace options. Together these provide a range of flexible and feature-rich digital ordering capabilities to suit the evolving buying needs of bandwidth customers.

Today Connectbase users can access euNetworks' impressive network infrastructure, which spans 53 cities across 17 countries in Europe, including 18 fiber-rich metropolitan networks in key cities such as London, Paris, Frankfurt, Amsterdam and Dublin. Users can tap into high-capacity, low latency fiber networks, with unique and multi-route options into more than 545 data centers across Europe.

Ben Edmond, CEO and founder of Connectbase, said, "We are delighted to welcome euNetworks as a seller into the ecosystem. Their extensive fiber network and reputation for high-quality bandwidth infrastructure services make them a valuable addition to our platform. This partnership will provide our users with enhanced access to critical connectivity options across Europe, further solidifying Connectbase's position as the go-to platform for global connectivity solutions."

Kevin Dean, Interim Chief Executive of euNetworks, said, "Our integration with Connectbase represents a partnership between two companies that distinctly complement each other. Their ecosystem is a leading platform for global connectivity solutions, and our European network delivers some of the most unique, diverse and modern high-capacity fiber infrastructure available."

Dean added, "Alongside our API and portal options for digital ordering, Connectbase is a marketplace that enhances access to our network and allows customers across the globe to quickly and easily order from euNetworks to meet their European bandwidth requirements."
